Company Background

The construction and entrepreneurial company, Zaroura Real Estate Ltd. (company registration no. 515090892) is a company specializing in projects of building preservation under severe standards. The company has practical experience in dozens of contractual projects combining the following components:

- Building enlargement, adding rooms and adding special security sheltered rooms
- Old buildings reinforcement in accordance with Standard 413 (in accordance with the TAMA - national master plan 38)
- Renovation of preserved buildings' façades under a severe standard
- Adding floors to existing residential buildings
- Adding elevators and stairs' shafts change in existing buildings
- Excavation of a basement parking under buildings (most complex work, which includes creating an infrastructure of new foundations)
- Construction of new residential buildings
- Hanging complicated buildings
- Demolition work, basement construction under existing buildings
- Engineering consulting

Our company is proud to present a number of old buildings, in which were carried out and successfully completed construction plans identical to TAMA 38 standard; these can be seen on our internet website.

Our engineers and field staff, specialize in taking care of old buildings, hazardous buildings, which logistically hard to access in the busy area of Tel Aviv.
